To Whom It May Concern:

RE: Geri Monhollen

I have known Ms. Monhollen for approximately 20 years. I have known her personally and professionally.

Ms. Monhollen was the billing collector for my practice for approximately 12 years, including my shared practice with Drs. Kightlinger and Lambert as well as my single group practice with Orthopaedic Diagnostic & Treatment Center. Ms. Monhollen is an intelligent, hardworking, and motivated professional. She has excellent working knowledge of the billing and collecting process for orthopaedics. She has experience in CPT coding and accounts receivable management, including the collection of overdue and outstanding balances. She has started her own company, and I feel that she will do an excellent job.

Her experience is extensive. I personally can speak to the effectiveness of her work and the dedication to fairness as well as the appropriate aggressiveness needed to collect medical receipts. With her extensive experience both in billing and collecting, I am sure that her billing and collecting service called Doctors Revenue Management Services will meet and exceed your needs.

Ms. Monhollen was one of the major reasons I was successful in my clinical practice simply because she was outstanding in the financial management of my practice.

Respectfully yours,

Jeffery L. Stambough, M.D., M.B.A.
